O3ZOR

aluminium collection

Avant is an innovative range of switches designed for those who want to combine modern design with maximum practicality. Elegant shapes, quality materials and easy operation make every press a pleasant experience.

The switch frames are made of high-quality aluminium, ensuring not only durability but also adding a light aesthetic element to every room.

A new design series of switches and sockets that thanks to progressive processing will elevate your space to a new level and highlight the beauty of modern interiors. The main design feature is the rocker switch control, which gives the switches sophisticated look while allowing convenient and intuitive control of lights.

nexa

minimalistic
design

rondo collection

It is characterized by clean and simple shapes that emphasize the beauty of glass and wood. Switches are designed with an emphasis on minimalist style and ergonomic design, giving the interior a modern look.

quadro collection

It combines the timeless natural beauty of glass and wood with the modern appearance of metal. Each piece is carefully crafted to blend traditional craftsmanship with premium design, creating a unique spatial element.

A new design series of switches and sockets inspired by the toggle RETRO series, presenting a perfect blend of minimalism and functionality in every space. The frame material includes high-quality glass in practical white and black finishes, as well as wooden frames for those seeking a natural design. The devices are universal for both collections of the NEXA series.

frames

retro

original design
inspired by The First
Republic era

glass

Glass... timeless material that defines its purity of design. Its elegance provides delicate beauty combined with high resistance.

wood

Wood lovers will be attracted by solid frames of maple, light oak and dark stained oak in combination with white or black covers.

ceramic

Ceramic... typical material of The First Republic era which is still an inspiration for today's design.

Different types of rotary / toggle switching elements emphasize the overall originality.

hand-painted ceramic

Hand-painted motives on ceramic frames... let the folklore lavishness enrich any space.
